

Sponsorship Info

Hello!

Thanks for taking the time to look through our sponsorship package.

We host events for a community that is passionate about their work, eager to learn, and who are genuinely good people we like hanging around with.

It's a pretty simple formula:

Passionate Business Owners + Collaborative Mindset
=
Good conversation and new opportunities

If you haven't been to one of our events, you can expect to meet like-minded people who want their fellow industry members to succeed too. 'High tide lifts all boats' kinda thing.

Welcome to B&B!

Byron, Stefan, and Jason

About Us

Why - Collaboration makes work more fun, more efficient, and improves our industry.

Who - Craftspeople and entrepreneurs; builders, designers, architects, trades, and suppliers!

Types of Events

Flagship Events are anywhere from 100-200 people, with a speaker and short presentation with an emphasis on collaborating. We host these at breweries and showrooms. We host 2-3 per year.

Workshops are capped at 30-35, and run about 3 hours with a specific group discussion + exercise, as well as time to connect with peers. You can watch a video about one of our workshops [here](#). We host 1-2 per year.

Happy Hour Events typically see 40-75. A few words of thanks and recognition are about it for speaking time—the rest is open for connecting. We host 8 per year.

Giving Back Events focus on delivering exposure and donations to organizations doing positive things in our industry. A portion of proceeds from ticket sales are donated and our presentation is hosted by our charity organization. We host 1 per year.

Testimonials

"I have never been apart of a group that's so open in trying to change this industry by helping each other. I look at it this way; If I can give one piece of advice to one person and they don't make the same mistakes we did, then that is a big win. As a group and a collective we have hundreds of years experience we can share within this community and further."

"What I love about this community is that it's centered on collaboration, education, and sharing information and resources for the betterment of our industry. It's about what we can learn from each other, without judgement, and how we can educate and inform the industry with innovation. And that's pretty exciting!"
